

ASERSA Open Webinar Series

21 April 2021

Good morning, good afternoon, and even good evening to all.

Welcome to webinar #6 of the Open Webinar Series 2021.

Thank you very much for attending this new ASERSA webinar.

The favorable welcome that our previous webinars have received during the past months has encouraged us to continue with the initiative of sharing and disseminating the most diverse projects intended to make water reclamation and reuse an essential element of water resources management.

ASERSA Open Webinar Series

21 April 2021

This webinar has been possible thanks to the unconditional support of our sponsor members:

The Catalanian Water Agency (ACA)

The Sanitation Agency of the Murcia Region (ESAMUR)

The company SUEZ Spain

The company Veolia Spain

as well as the support of all our regular members.

ASERSA Open Webinar Series

21 April 2021

Equally important has been the assistance and interest offered by so many friends, colleagues, and professionals, willing to share with all of us their knowledge and experiences on how to implement and carry out water reuse, under the most diverse environmental, social and economic conditions.

ASERSA Open Webinar Series

24 marzo 2021

Today's webinar features the contributions of two exceptional guests, who work in two very different environmental conditions, Ignacio del Río, at the R&D agency CEDEX, a supporting agency of the Water General Directorate of the Spanish Ministry for Ecological Transition and Demographic Challenge and Ivan Poussade, at Veolia France, with a privileged perspective on the regulatory approaches currently considered by French water resources authorities concerning water reuse for agricultural irrigation.
